

Join us in developing the City of Newark's.....

Pedestrian and Bicycle Master Plan

by attending our second

COMMUNITY WORKSHOP

on

Thursday, December 16, 2010, 6 p.m.

at the

**Silliman Activity Center
6800 Mowry Avenue, Newark**

Topics will include:

- Goals and Policies of the Pedestrian and Bicycle Master Plan
- Overview of the Preferred Bicycle Network
- Summary of School Walking Audits
- Summary of Potential Bicycle and Pedestrian Improvement Projects and Education/Enforcement/Encouragement Programs

The City of Newark's Pedestrian and Bicycle Master Plan is a long range planning document that will provide a basis for future pedestrian and bicycle improvement projects and programs. The ultimate goal is to make biking and walking more viable alternatives for work, school, and recreational trips in Newark. This will help reduce traffic congestion and improve the overall health of the community.

This project is being funded primarily through the Alameda County Transportation Improvement Authority Measure B Bicycle and Pedestrian Countywide Discretionary Fund Program. For more information, please visit the "Pedestrian and Bicycle Master Plan" page on the City of Newark website at www.newark.org under the Quick Links menu.
