City of Newark
Master Fee Schedule - Effective July 1, 2017

INTRODUCTION

City fees are designed to cover the costs of providing selected services to individuals, groups, or business entities. All City fees are consolidated in the Master Fee Schedule, which is designed to assist City staff and the public in quickly locating the appropriate fee. Changes to the Master Fee Schedule are adopted annually by the City Council.

The City's Finance Department is charged with the general maintenance and control of the Schedule. All fees remain in effect unless an action is taken to modify the fees as described below. The process of maintaining the Schedule includes reviewing requests to modify the document, periodic reviews to assure fees are equitable and reflect the cost of services, and the preparation of transmittals to the City Council for recommended changes to the fees.

City departments play a crucial role in both developing and administering fees. All departments that levy fees are responsible for:

- Charging all appropriate fees as described in the Master Fee Schedule.
- Keeping updated copies of the Schedule available and in clear display for the public.
- Proposing new fees and revisions that reflect the cost of services provided by the City.

Fees may be added, deleted, or revised through two methods. The first is through an annual process. During this process, the Finance Department works with all City departments to determine economic conditions, costs, State or Federal mandates, or other factors requiring modification of the Schedule. These modifications are then consolidated by the Finance Department and presented to the City Council for review and adoption.

The second method of change occurs during the course of the year. When a department determines a fee must be added, deleted, or modified, it develops an agenda report that is reviewed by the Finance Department. The report is then scheduled for City Council review.

All fee changes must be adopted by the City Council. When changes are proposed, public hearing notices are published by the City Clerk.

The maximum payment that will be accepted by credit card is \$10,000.

Further information on the Master Fee Schedule may be obtained by contacting the Finance Department at (510) 578-4337.

GLOSSARY OF FEES

Below is a list of certain common fees which may assist you in understanding the fees contained in this document. An important distinction is that fees are not taxes. Fees are charged in order to recoup the costs of providing specific services to specific individuals, groups, or business entities. For example, developers are charged a number of fees in exchange for the services the City provides them in processing their developments. Taxes, on the other hand, are general assessments to provide for general City revenue. Examples are property tax, sales tax, and transient occupancy tax. The City's taxes are not listed in this document.

Compliance Fees – Charges imposed to defray the City's labor, materials, and administrative costs of assuring compliance with specific City ordinances, such as weed abatement.

Inspection Fees – Charges related to the physical inspection of facilities, buildings, sites, equipment, etc.

License and Permit Fees – Charges imposed to defray the costs incurred in processing applications or licenses and permits which authorize the holder to engage in a specific function or activity. These fees include the cost of assuring compliance with the related conditions and regulations. Examples are business license fees or parade permit fees.

Penalty Fees and Fines – Charges imposed for non-compliance of City requirements.

Plan Check Fees – Charges for time, materials, and administration costs for the detailed inspection of plans submitted to the City for review.

Rental Fees – Charges for the use of City facilities and services.

403-0000	3860 ILF	4. Housing			
		a. Residential Housing Impact Fee* (revised annually)			
		(1) First 1,000 sq. ft. floor area/unit**	20/square foot		
		(2) All sq. ft. over 1,000 sq. floor area/unit	8/square foot		
		* Established by Resolution No. 10,184. Floor area for a residential development equals the sum of the horizontal floor areas of a building measured from the exterior face of exterior walls or from the center line of a wall separating two buildings, excluding garages, carports, and common areas. ** No housing impact fee is charged for additions to existing buildings.			
		b. Non-Residential Housing Impact Fee *** (revised annually)			
		(1) Commercial	3.59/square foot		
		(2) Industrial	.69/square foot		
		*** Established by Resolution No. 8802. Floor area for a commercial development equals the sum of the horizontal floor areas of the a building measured from the exterior face of exterior walls or from the center line of a wall separating two buildings. Where no walls exist, the floor area is the area covered by the roof excluding two feet on each side of the structure. Outside areas used for sales or display (such as nurseries, building materials, auto sales, etc.) may be considered part of floor area when the community development director determines that the use of the outside area significantly contributes to the employee density of the building.
